

Comics and Illustration workshops with author/illustrator, Emily Fella

I design my comics and illustration workshops to tie in with curriculum topics of your choice. The sessions have the power to engage pupils with writing, character creation and drawing in addition to their current topic.

- Age range KS1-5
- Suitable for schools, SEND settings and other arts & cultural settings.
- Please see below for testimonials.

Themes

Go for a general 'comics' or 'picture book' theme, or ask me to create workshops to tie in with your current topics. Examples of the kinds of themes that work well are space, heroes and villains, robots, myths and legends, oceans, rainforest, forest, seasons, Stone Age, Ice Age, Chinese New Year, India, Aztecs, dragons, fairy tales, diverse characters, portraits/diary, fashion/costume and World Book Day.

Comics Workshops

- We look at examples of inspirational comics and graphic novels.
- The group learn to draw a character step-by-step following my example.
- I take them through the fundamentals of character creation on a PowerPoint, then they create original characters.
- After some brainstorming the group create comic strips. This can be done at a later date due to time restrictions, and I provide teachers with guidance notes.
- I offer support, encouragement and tips throughout the session.

Picture Book Workshops

- We look at picture book examples to demonstrate simplicity of text and line, and fun use of the picture book format (or the session can be based on a picture book the group are already studying.)
- I show the group how I create characters and examples of my own picture book storyboards.
- We brainstorm for ideas then create original characters.
- The pupils create their own picture book storyboard following more tips and inspiration.
- I offer support, encouragement and tips throughout the session.

Useful to Know

- I include printable resources such as planning and evaluation sheets for pupils, comic/picture book templates and guidance notes for teachers.
- I usually require PowerPoint facilities and a flipchart, and the pupils need A4 paper or art books and pencils.
- I am CRB checked and registered with the DBS Update Service.
- Public Liability insurance
- Pricing information is available on request. A discounted rate is applied for full day bookings, which can include an assembly and workshops with different year groups and topics. Please contact me [here](#)

'The workshops were absolutely as described on your website and the children really loved it and produced some great work. They exceeded expectations. I really appreciate you being so flexible and offering to see as many children as possible and to fit yourself around our school and our timetable. Some visitors are so rigid in what they will or won't do so it is refreshing to work with someone who is happy to go with the flow.' *Kate Horne, Deputy Head, Maybury Primary School, Woking.*

'Thank you so much for coming to Goldsworth and sharing your workshop. The children were so excited about dedicating time to comics, and they got an awful lot from the sessions – their comics were lovely and they were enthusiastic to continue with them in following lessons. They were keen to continue with this learning and could apply it to other lessons after. The children have said how inspired they felt and how much fun they had being creative. It was really wonderful to explore comics and illustration within Book Week, which normally sees us celebrate chapter-book authors in

KS2, so I would be keen to do something similar in the future.' *Laura Pether, Year 6 Teacher, Goldsworth Primary School, Woking*

'Emily's visit was perfect for our pupils, they had a chance to learn about the life of an illustrator/author, as well as learning some top tips for drawing themselves. I have been asked by many when she is coming back as they really enjoyed the visit!' *Hannah Williams, Assistant Principal, Littlegreen Academy, Chichester.*

'This was an absolutely fantastic session! The children were very engaged and I've never seen them so quiet. They all loved the content and the step-by-step approach worked well. Your modelling was brilliant and all of the children were able to create your character, as well as their own. Everyone loved the session, even children who think they can't draw. I really like how you reinforced that you think that *everyone* can draw. Thank you so much.' *Abbie Purcell, Teacher, Heathfield House School, Chiswick.*

'Just wanted to say a thank you on behalf of all staff and children - the workshops were very well received and the children thoroughly enjoyed them! We will certainly consider booking you in the future.' *Rebecca Shacklock, School Business Assistant, Aston on Trent Primary School.*

'My daughter attended the comic workshop at the library this afternoon and I just wanted to say thank you so much for arranging this session. It was absolutely brilliant and all the kids seemed to respond well, even though there was quite a range of different ages and levels of talent. What an incredible treat and a fantastic way to get kids to engage in drawing and make the library a fun part of their half term activities.' *Parent's email to West Wickham Library*

'The workshop was absolutely lovely! The children loved it and it was wonderful to see their own personalities shine through in what they created. Thank you so much! ☺'

'The session was brilliant. The children loved it and were so enthused – they have been longing to carry on with their illustrations ever since the workshop! They really enjoyed being able to create their own characters and Emily led the workshop extremely well. She gave them starting points but then allowed them to be creative with their own ideas.' *Teachers at St. Peter's C.E. Primary School, Hammersmith, London*

'Poverest Primary School had the fantastic opportunity of having Emily with us for a week where she taught our children the art of creating comic strips. She guided and supported the children through the process using resources which we were given before the workshops commenced. These resources were clear and concise giving us, the teachers, plenty of material to work with so that the children were fully prepared for their workshops. Emily adapted the workshops to suit the age and ability of the class. We were impressed with how she delivered the workshops and her skills and knowledge she brought to the classroom. We would highly recommend Emily and she is returning next year to work with us again.' *Elisa Irwin, Poverest Primary School, St Mary Cray, Kent*

'Loved it – awesome lesson.' *Mike Pile, Year 5 Teacher, Wingham Primary School, Canterbury*

'Many thanks, once again, for helping in our Super Hero ArtsWeek at Spring Grove.'

Your workshops were well planned, suitable for all age ranges and delivered calmly and professionally. The children were able to follow your instructions and demonstrations perfectly and were keen to work on their comic strips after your sessions had finished. Your workshops were delivered to children at both school and at home via Google Meet due to our current Covid-19 situation without issue. The resulting work surpassed expectations and was due to you being inspirational - which was just what I was hoping for! I hope to work with Years 3 and 4 over the next two weeks to complete their Arts Award at Discover level, using the assembly interview you gave and the ideas that stemmed from their workshops.

I would be more than happy to be contacted by other schools in respect of supplying a reference for your excellent schools' workshops.' *Clare Drury, Art Co-ordinator, Spring Grove School, Wye*

'Thank you SO much for the session today. The children in my class loved it and are very keen to get their comic strips done! I thought you had a lovely manner with the children and they were brilliantly engaged in drawing this afternoon.' *Ben Smith, Director of Sport, Spring Grove School, Wye*

The children absolutely loved it, so much so that some of them asked to stay inside to continue their work at break! We all learnt lots and the children are looking forward to using these skills in upcoming lessons this week.' *Grace Stone, Prep 5 Class teacher, Spring Grove School, Wye*

Afterwards, our children were keen to spend more time on their creations and were pleased with their achievements. Thank you, Emily!' *Zoe Fraser, Teacher, Wingham Primary School, Canterbury*

'My son who isn't particularly artistic attended a comic workshop at the local library and that was it, he was hooked. From then on, he spent hours at his desk designing and drawing his own comic strip. He couldn't wait to go again and now draws comic birthday cards for all the family (and not a computer screen in sight!) Professionally organised and fantastically run.'
